Kansas City, Missouri 64106

Attention: Mr. Dennis Degner
Contact for EPA Region VII

Gentlemen:

In response to your "Notification of Hazardous Waste Activity" we enclose the form issued to us.

At this time we are discharging all waste into the municipal sewer system. As you know, we will be required to meet certain EPA effluent pretreatment standards as a result. We are, at this time, investigating methods of achieving these standards.

We expect the treatment process will generate sludges that are toxic and will have to be disposed with. However, at this time we can only guess that lead and possibly chromium will be the principal toxic agents. Accordingly, we have provided what information we can at this time on your form to facilitate our registration.

I hope our initial response has been satisfactory. I will be at your disposal for any questions your organization has.
